

Toshiba SurePoint Touch Display

*Making retail smarter starts with innovative
Toshiba touchscreens at the point-of-sale*

For the consumer ... fast, accurate checkouts and visibility to services

The ubiquity of the worldwide web and the pervasiveness of mobile handsets, netbooks and laptop PCs give consumers near limitless access to on-demand products, information and services. For retailers focused on strengthening customer advocacy, checkout speed, accuracy and a personalized shopping experience, it is no longer a differentiator to open new channels of communications with customers, it is a business imperative.

Create advocates by elevating the customer shopping experience

The SurePoint™ flat-panel touch display gives retailers a simple, yet innovative way to create a unique and distinctive experience for customers. Touchscreens help associates minimize wait time with speedy, accurate checkouts. When customer-facing displays are present for shoppers, they can scroll through receipts, access loyalty account information and respond to store promotions. Touch displays can also introduce new services at the point-of-sale, including third-party offers that help generate incremental revenue—all while making your store a favorite place to shop.

**TOGETHER
COMMERCE**

Highlights

- Environmentally friendly LED backlight technology
- Unintentional touch rejection for enhanced usability
- Deep sleep enabled with Toshiba Remote Management Agent
- Easily attaches and detaches I/O for improved serviceability
- Embedded diagnostics promote display life
- Flashable firmware updates

For the employee ... less training time, less stress

The Toshiba SurePoint touch display is engineered for optimum usability for store associates. Touchscreens dramatically reduce training time, enhancing the associate's confidence and productivity.

Speed employee training and increase accuracy, employing intuitive touch interfaces

Robust infrared (IR) touchscreens never need recalibrating and they offer the most flexibility for various input devices—from a bare finger or stylus to a credit card—speeding transactions. Glare-proof tempered glass and unique unintentional touch rejection maximize usability. In addition, tactile and auditory feedback during transactions—including a forward-facing speaker kit—help associates avoid unnecessary errors.

For the retailer ... a smarter business

Retailers who deploy Toshiba SurePoint touchscreens at checkout can begin seeing an immediate return on their investment. Touch displays promote significantly faster throughput that can potentially reduce the number of checkout lanes open and the number of cashiers required at the front end.

Deliver quick return on investment, streamlining operations, controlling costs and managing risk.

While the innovative Toshiba SurePoint touch display helps improve employee productivity and positively impacts customer loyalty, it also enables retailers to operate smarter and realize a fast return on investment. For example, flashable firmware and security updates help reduce service and staffing costs. Built-in diagnostic tools monitor each display's health with critical information such as bulb life, brightness settings and power-on hours, maximizing the usable life. Peripherals can be attached and removed easily without disassembling the display, simplifying future upgrades.

The latest Toshiba SurePoint touch displays help retailers demonstrate their environmental commitment and build a sustainable business. More energy efficient than ever before, new displays support ultra-low power deep sleep automation and feature LED backlight technology free from harmful chemicals.¹ The retail-hardened design ensures long service life even under the most extreme conditions. In addition, displays are constructed from recycled materials and packaging is made from 100 percent recycled post-consumer waste to help reduce the cost and environmental impact of end-of-life disposal.

Trust Toshiba's retail experience

As the world's leading provider of integrated in-store solutions and retail insights, Toshiba Global Commerce Solutions delivers end-to-end solutions for checkout, consumer interactions and retail operations that unlock amazing new possibilities for retailers and shoppers everywhere. In partnership with the Together Commerce Alliance, our global business partner program, we help bring innovation and value to every retailing experience so that you can delight your customers every day, everywhere.

Product Overview

1. Intuitive, infrared touch display
2. High-contrast ratio, minimal glare and wide-angle viewing
3. High brightness, active-matrix display supports full motion video for better viewing
4. Convenient infrared technology interaction accepts various modes of input
5. Energy-efficient design offers low power consumption
6. Supports deep sleep on Toshiba SurePOS units
7. Direct attachment by USB to I/O and POS
8. Forward-facing speaker kit
9. Spill resistant retail hardened construction
10. Integrates with various optional peripherals for a unified appearance (magnetic strip readers, keypads, key locks and speakers)
11. 32-key programmable keypad for rapid data entry (optional)
12. A choice of 12-inch or 15-inch display
13. Wide tilt range for ergonomically correct viewing
14. Multiple mounting options for versatile placement options
15. 180-degree rotational range enables use by cashier and/or customer
16. Stable mount fixtures offer a steady screen display
17. Available in pearl white or iron gray to match existing POS hardware

¹ Deep sleep power state is defined as "suspend to RAM" (random access memory) (meaning the power supply is in a reduced power mode). The system appears off; the CPU has no power; RAM is in slow refresh.

* The energy consumption efficiency is the value of the power consumption measured in accordance with the measuring method specified by the Japan energy saving law divided by the Composite Theoretical Performance specified by the energy saving law.

† An operating system is not included and can be purchased separately.

‡ For a copy of Toshiba's Statement of Limited Warranty, please contact your Toshiba representative or authorized reseller.

§ Technical support response times may vary.

** For deep sleep and wake on touch, 4690 OS V6.2 Enhanced with PTF (Program Temporary Fix) required. For MSR fields available in RMA 2.6 (Remote Management Agent), 4690 OS V6.2 (Classic or Enhanced) is required.
