More Retail Space and Faster Check Out Times
To strengthen and build customer loyalty

Mobile Self Scanning solutions delivering short ROI and more smiles on customers' faces

- › storeMate Mobile Self Scanning is part of the storeMate Solution Suite, a scalable set of building blocks for small convenience stores, supermarkets and hypermarkets chains
- › Customer oriented, real-time Transaction, Item and Promotion information
- › Modular Solution with graphical, configurable, User Interfaces
- › Full graphical Customer Interface with embedded promotional information features
- › Real-time Transaction Data availability with Local and/or Central Business Intelligence Connect
- › Powerful System and Data management control
- › Security Management
- › Built on the latest, state of the art Microsoft .NET Framework, Microsoft SQL Server and Microsoft Windows platforms and technology
- › Web-based Support and Cloud-Ready (see storeMate Online)
- › Independent Solution with generic, open interface capabilities for 3rd party POS solutions
- › storeMate: A Full-fledged Toolbox of applications for Central, Store and Front Office operations.

Business Benefits

- › **Reduce hardware costs**
storeMate Mobile Self Scanning runs on a variety of retailer and customer owned mobile devices. Toshiba TEC is able to deploy mobile devices in joint partnership with our tech partners, in accordance to your specifications and requirements.
- › **Keep a running total in real-time**
Let your customers scan their items as they shop, keeping a convenient total for easy tracking and check out.
- › **Real-time Item and Promotion information**
Customers are guaranteed that the pricing information on the mobile terminal is identical to the Point of Sale. Next to that, active promotion information can be shown in real-time during the operation, offering that all important mobile experience for the customer.
- › **Smoother Check Out**
Since shoppers have already scanned their purchases, they can simply pay and go, eliminating annoying checkout lines and reducing staffing needs.
- › **A Complete Solution**
Let's emphasize the obvious: a Point of Sale system is a retailer's daily bread and butter; to process sales, reduce pricing errors and speed up check outs. We help you let the customer come first by offering our Mobile Self Scanning solution.
- › **Variation and flexibility**
The seamless integration with storeMate POS solution offers the Retailer a wide variety of flexible payment methods, including cash, debit/credit card, loyalty and payment on account.
Shoppers can be identified; Coupons, vouchers and stamps can be issued and redeemed both physically and electronically. Loyalty programs can quickly be integrated to accurately enrol shoppers at the Point of Sale – proven to be the most effective time and place to extend a loyalty program offer.

Embrace Multi-/Omni-Channel
Customers need a reason to buy from you.
Think storeMate Self Scanning.

Imagine The Possibilities. With Toshiba TEC storeMate.
Tomorrow is Here Today.

› Run Mobile Marketing Programs

Think out of the box: Include the ability to automatically look up and sell items based on pre-set sales, quantity discount and preferred price levels.

› Monitoring and Security

A variety of management and control features allow the Retailer to guarantee smooth daily operations and control of the system. Automatically triggered Re-Scans (randomly or customer-level based), to be executed directly on the Mobile Terminal; Full Re-scan to be executed on the regular Point of Sale, with differentiation receipt; and Remote System Status Monitoring via Monitoring Stations, are standard available features in storeMate Mobile Self Scanning.

A multi-store management

storeMate Mobile Self Scanning has been designed to work in a single sales point as well as for a whole network of stores. From a single and centralized product catalogue, storeMate Mobile Self Scanning can manage the specificities of each point of sale: prices, promotions, assortment, end of transactions barcodes and more.

You can deploy the solution quickly and progressively on all the stores of your network, while managing all product features centrally.

A solution connected to your systems

storemate Self Scanning can totally be connected to your existing platform and systems:

- › Point of Sale
- › Prices and Promotions via web service or feed

Facts and Figures

- › storeMate Mobile Self Scanning is liked at 1,000s of customer terminals all over Europe
- › storeMate offers the right building blocks for the business model of successful retail organisations
- › The optional storeMate online Server solution is instrumental to move retail organisations from their current store-based operational efficiency towards a superior, online, retailer driven customer experience.
- › storeMate Mobile Self Scanning offers the flexibility to grow towards customer owned device based solutions.

Together Commerce

Together Commerce is Toshiba's vision for the new future of retail where retailers adapt their strategies, their stores and their technology to engage with consumers throughout the buying process in a seamless and helpful way. This collaborative approach enables retailers and customers to create mutually rewarding commerce—together.

Trust Toshiba's Retail Experience

As the world's leading provider of integrated in-store solutions and retail insights, Toshiba delivers end-to-end solutions for checkout, consumer interactions and retail operations that unlock amazing new possibilities for our clients and shoppers everywhere.

Partners

At Toshiba TEC, our success relies heavily on the success of our partners. Whether you are a global technology company innovating for the future, a system integrator providing products and services in regions across the world, or a local VAR, our focus is helping you helping our joint customers.

At the same time, we also integrate and support smart applications from our technology partners into genuine end-to-end store automation solutions – for the greater benefit of our customers.

Toshiba TEC has a long track record of creating value for our customers applying a breadth of expertise around the globe. We demonstrate this expertise and commitment through joint Go To Market programs, Customer Training and Voice of the Customer Programs.

It is this approach that provides the foundation for our partnerships, helping us solve the retail industry's future challenges together, today.
