# storeMate Payment Station

Europe's compact cash payment and recycling system  
Accuracy, safety and efficiency in one  
For installations with high payment flows

## Automatic Cash Payment and Recycling Solution

- › The storeMate Payment Station is an unattended stand-alone solution for safe and secure transaction payment
- › Improved business process: no errors during high-throughput operation, no discussions with customers, proven reduced internal fraud mechanism
- › Full touch screen operation
- › Multilingual (default languages: EN, DE, FR, SP, NL)
- › Secure cash management retail software
- › Stylish design and "follow me" LED signage
- › Error recovery animation on the POS screen
- › Centralized cash management software
- › Connects to any POS System
- › HACCP approved – staff does not touch cash money any longer.

## More cash in hand!

Feedback from our customers confirm that thanks to storeMate Payment Station use, shops have significantly more cash in hand than before.

## Protecting Customers from the Risks of Counterfeit Cash

The risks and costs of counterfeit money is a real and significant problem facing the retail industry today. Too frequently, counterfeit money is bundled with the correct cash money, damaging your reputation and turnover. Why? Because, a storeowner is responsible at all times for the accepted cash.

The storeMate Payment Station solves this issue; a cash recycling module on board checks all incoming cash at all times and much faster than any manual check ever can. The risk of counterfeit money ending up in your till is therefore near-zero.

All our systems are certified by the European Central Bank (ECB) and templates are frequently updated to keep your business safe and healthy.

## Tech Specs

The storeMate Payment Station is founded on Microsoft .NET® and runs on Windows Embedded POS Ready 7® and Windows 7®.

All vendor-supplied OPOS devices and services under the Microsoft Windows operating system can be connected to the storeMate Payment Station, including receipt printers and scanners.

The storeMate Payment Station comes in three variants:

- › Stand-alone operation: scan, pay and go
- › Stand-alone operation: manual amount entry, pay and go
- › Dealer mode operation: integrated with third-party host POS system.

Integration of the storeMate Payment Station with a third-party POS system is undertaken by certified Toshiba TEC specialists. It takes less than one week to upgrade your cash management solution to the safest in the industry.

All major EFT terminal solutions are supported.

The storeMate Payment Station is very reliable and robust with a wide variety of options. Thanks to the flexibility in configuration, it can differ from a standard version to a fully equipped payment station with options that meet your needs and your budget.

## Features

- › Multi-language applications and data
- › Intuitive, customisable POS user interface
- › Hardware independent
- › Based on retail industry standards (ARTS, OPOS, EMV).

## Front Office Functionality

- › Sales and return
- › Cash management
- › Paying with cash, EFT, vouchers.

## Case Studies on Request

- 1 Bakery
- 2 Butcher
- 3 Convenience store
- 4 Petrol & gas stations
- 5 Supermarket (front office solution)

## Hardware

- › Cabinet in stainless steel highly resistant to corrosion due to the surfaces protected with special coatings. It has been designed to have minimum overall dimensions
- › Magnetic stripe or bar code ticket system
- › Receipt issued for payment
- › 3 hoppers for equal or different notes
- › 8 hoppers for equal or difference coins
- › Notes overflow cassette
- › Coins overflow box
- › Secure closed cash management system
- › Illuminated notes and coins entry slots
- › Illuminated coin and receipt return tray
- › Multi-layered security with security locks
- › Receipt printer on thermal paper equipped with sensors and cutter
- › Integrated power supply
- › Heating and cooling units with separate thermostats
- › Online operation (RS-232 or TCP/IP) or stand-alone
- › Dimensions: notes unit and coins unit each: width 240 mm, height 820 mm, depth 488 mm
- › Weight about 2 x 60 kg

The storeMate Payment Station combines our application experience with the best in design for a service-friendly payment kiosk.
